Done. This is a paid version of the free app that has only a few additional features that are listed below. Before you buy this app, we strongly recommend you download and try the free Redsun RTS app is a great example of the classic RTS genre, now unfairly forgotten. In this game you directly and that speak for yourself the name of the genre, armed with real-time control, build a base, plan attacks and strengthen the defense on the battlefield. Almost identical to the first RTS on PC control (adjusted for the use of a touch screen), 2D Graphics with part-use particles - No software restrictions on creative units (limitation may concern weak machines) - The ability to play with a mouse using an OTG cable - a system of ratings and achievements using the Google Play service Description: Redsun RTS Premium - as the name suggests, the game belongs to a fairly rare genre of Real-time strategy, among other things, it is also installed in the most authentic form. Well, the classics - to build a base, to produce the resources necessary to build infrastructure and defense, and go to war with the enemy after the formation of the army. Guaranteed fun for old-school fans. Characteristics : Almost identical to the first RTS on PC control (adapted for the use of the touch screen), 2D graphics with particles used - No software restrictions to create units (restrictions can only affect weak machines) - 1x1 Multiplayer Redsun RTS Premium - incredibly addictive military strategy in real game for android devices, created according to all the canons of the beloved by millions of genre, as well as able to please all fans of such a cult of cult like: Red Alert and Tiberian Sun. You will control your own army, rebuild bases and outposts, plan attacks on the enemy, strengthen your defenses and use the most dizzying tactics and strategic maneuvers. Get ready for the most epic confrontations of your life! At the very beginning of the game of your choice will be represented by three opposing factions - alliance, Japanese Empire and Soviets, each of which has a unique set of abilities, as well as different units and equipment with their own characteristics. You will find three full-fledged campaigns for each of the factions, exciting rating fights in real time 1 on 1, multiplayer PVP, classic controls, high-quality graphics and polished in the smallest details gameplay, which will not let you get bored! More information requires Android4.0 and up developerDigital garbage, a great game! Red Alert for my phone :) - APKAward.com This game is actually no less than other RTS games, say, the phone on excellent RTS is rare, we have to love home and Ukraine, but the network of those so-called RTS is mostly by turns the strategy of Krypton gold game, in addition to the simulator running Red Alert, this game can be said to be small in size, but with Red Alert almost mold. The texture of the map is the same.
